Back:

CO 47(52, 57, 62, 67, 72) Using the **Provisional Tubular CO** and scrap yarn on US #5.

Make a slip knot with the working yarn and a piece of scrap yarn held together and place it on your right hand needle. This loop from the slip knot does **not** count as a stitch. Holding your two pieces of yarn as if you were to do a long tail cast-on, making sure that the scrap yarn is coming off your thumb and the working yarn off the top of your index finger. *Move the working yarn from front to back under the scrap yarn, then bringing the working yarn to the front again under the needle, bring the working yarn over the needle to the back, then front again under the needle.* Repeat between stars for desired amount. Be sure you have the same amount of stitches on the scrap yarn as you do the needle. Remove the slip knot from needle and continue in pattern

Work in stockinet stitch for 3 rows.

With the purl side facing, slip all held sts from scrap yarn to the extra circular needle (any size smaller than a #5, so they slip easily. It doesn't matter what size it is, it's just a place holder.)

Your #5 needle will be on top holding your purl stitches, and your other will be on the bottom holding your knit stitches. Every other stitch on your bottom needle will be laying backwards, so be sure to pay attention to stitch orientation. Remember, right side of the stitch facing you is right, left side facing is wrong)

*P1 from top needle, k1 from bottom. * Repeat between ** to end.
[96(104, 122, 124, 134, 144) sts]

Work in 1-1 rib for 5 more rows.

1. Purl across, decreasing 10(10, 10, 12, 12, 14) stitches evenly across
[86(94, 104, 112, 122, 130) sts]
2. Switch to larger needles (#7) and change to pattern starting with row 2.
3. & 4. Work even in pattern.

Waist shaping: Work in pattern for the rest of the piece, being sure to keep track of where you are by keeping notes or using a row counter. The eyelets will stack on top of each other, so if you have a hard time as to where to start count back from the previous eyelet 4 stitches. The eyelets of the same pattern row should stack exactly on top of each other. *For an easier time seaming make sure not to do an eyelet on the edge, unless you have at least 2 sts before the edge.

5. On this and every row 5 of the pattern, k1, ssk, work to within last 3 sts, k2tog, k1.
6. thru 8. Work evenly in pattern.
