Pattern Notes
*The wrap is knitted from the center to one of the outer edges using a provisional cast on. When the first half of the shawl is complete, the provisional cast on is pulled out, the live stitches are picked up, and the shawl is worked from the center to the opposite outer edge.

*The first 7 stitches and the last 7 stitches of every row form the border and are worked in garter stitch (knit all stitches). You will have 75 stitches on the needle throughout the project: 7 border stitches; 61 Eyelet Chevron Pattern stitches; 7 border stitches.

*PSSO: insert the tip of the LH needle into the slipped stitch and bring it over the knitted stitch(es) and off the needed as if to bind off.

Provisional Cast On
1. With the waste yarn make a slip knot and place it on the crochet hook. Keeping the slip knot loose, place the crochet hook with the slip knot in the front of the knitting needle, with the working yarn at the back of the knitting needle.
2. With the crochet hook inserted into the slip knot, wrap the yarn around the crochet hook and pull it through the

slip stitch. Place this stitch on the left-hand needle. One stitch has been created. The yarn is now in front of the knitting needle.
3. Leave the crochet hook in the front of the needle and bring the yarn to the back of the needle.
4. Repeat steps 2 and 3 until 75 stitches are on the needle.
5. Once 75 stitches are on the needle, chain a few more stitches with the crochet hook. Pull the last stitch in the chain until you have a long loop. Cut the yarn and pull the tail through the loop.

Removing Waste Yarn to Access Live Stitches
Pull out the stitches in the crochet chain made with the waste yarn by gently taking the tail out of the last loop of the chain. Pull out a provisional cast on loop and pick up the hanging live stitch with the empty knitting needle. Repeat the unpicking process until all 75 live stitches are on the knitting needle.

Directions
Using a provisional cast on (see "Provisional Cast On" instructions or use method of your choice), CO 75 sts with waste yarn.

Note: The first 7 sts and last 7 sts of every row form the garter stitch border (knit every stitch). Instructions for the border are not included in the Eyelet Chevron pattern that follows. Pm after the 7th st and after the 68th st to indicate border. Begin Eyelet Chevron Pattern.
